

Screens, Which  
Suits You The Best!

# About us

Sudpi is a leading solutions provider for premium quality AV integration products. We are committed to keep up with the latest AV trends to create smart & stable products with aesthetics that meet global standards. Our unique offerings are a result of our constant commitment towards innovation and latest AV industry know-how.

# Our Goal

Carve a path of transformation by recognising customer specific challenges & customise the right solution on time with strong and valued work ethic . We aim to redefine viewing experience with our ProAV Solutions.

# Our Offerings

# Tabular Motorised Projection Screen

- The Screen surface is made from high quality and high Gain fabric to diffuse light in all directions, so the image can be seen from any angle.
- It features a choice of in-built roller motors that smoothly and securely wind the screen fabric when not in use.

# Tab Tension Motorised Projection Screen

The Sudpi Tab Tension Screen has no exposed fasteners or fixtures for a cleaner appearance. The auto/manual tensioned system grips to the screen from the edges that results in an extremely flat surface for optimum image quality. This tool-free system ensures that wrinkles and "V" waves are eliminated and the High Gain Acoustic Transparent fabric used here projects a crisp picture.

# Fixed Frame Projection Screen

Sudpi Fixed Framed Screens are among the most popular projector screens, especially for Home Theaters, Boardrooms, Auditoriums and anywhere a permanent wall-mounted solution is suitable. Fixed Frame Projector screens require more assembly, however they are more easily mounted, requiring less installation and no electrical connectivity. Fixed Frame screens feature an ideally flat projection surface to maximize resolution and picture quality. Screens,

# Available Sizes

Viewing Area (WxH)	Image Diagonal	ASPECT RATIO
80" x 45" (2037 mm x 1146 mm)	92"	16:9
87" x 49" (2214 mm x 1245 mm)	100"	16:9
92" x 52" (2347 mm x 1320 mm)	106"	16:9
